Description

We offer a Liebherr D926 T-E A2 engine, which has been overhauled and then tested on an engine dynamometer. This engine is used in many construction machines, including excavators, loaders, bulldozers. Warranty: 12 months under EXW terms. The quoted price is applicable with the return of the customer's old engine. To benefit from the offered price, it is necessary to return the engine in a condition suitable for refurbishment. We offer the possibility of modifying the engine to meet the customer's specific requirements. If you need the engine configured for your particular application, please contact us, and our specialists will prepare the engine according to your needs. We encourage you to contact us for more information and to discuss the details of the purchase.
